About me

I am a skilled developer with expertise in SCSS, React js, Tailwind Css , Next.js, TypeScript, Redux toolkit, Ruby on Rails and Node js. A graduate of Moringa School, Africa's premier coding bootcamp. Currently expanding expertise by delving into Python and honing UI/UX design skills using Figma.

I am comfortable working with databases, APIs, and server-side technologies, as well as designing and implementing dynamic user interfaces.

I am excited to take on challenging projects and collaborate with teams to create engaging and effective web applications

Skills

- ReactJS / NextJS / Typescript for web-based applications
- Scss css
- Tailwind css
- Redux toolkit for state management on the web
- Ruby on Rails
- Node Js
- Express Js
- UI/UX Design (basics) using Figma

Other skills

- Mantine UI
- Yup Validation
- Git

EXPERIENCE

TECHNICAL MENTOR

Everest Tech Hub Academy, September 2023 - Present

Everest Tech Hub is one of the leading software bootcamp in Kenya. We follow the project based learning approach when teaching and mentoring our students.

As a technical mentor, I played a pivotal role in developing the School's website as well as mentoring all students.

At Everest Tech Hub Academy, I take the students through React Js, Node Js and Ruby on Rails as well as teaching them best practices that enhance their app's performance.

PROJECTS

FULLSTACK ENGINEER

Bee Kissed Honey, August 2023 - October 2023

BeeKissed honey is an e-commerce site specialising in high quality natural honey. As a full stack engineer, I helped design and build, both the frontend and the backend using technologies such as React Js, Tailwind css, Node Js and Express.

I made sure that the frontend is appealing to the eye and responsive.

FRONTEND ENGINEER

Writer's Hub, May 2023 - June 2023

Writer's Hub is a premier online platform dedicated to academic writing excellence. It offers a range of resources and services tailored to scholars, researchers, and students seeking to master the art of scholarly communication.

I played a pivotal role in the development of the frontend, contributing my expertise and dedication to create an intuitive and engaging user interface.

FULLSTACK ENGINEER

Moringa School Capstone Project, Nairobi - Kenya -

April 2023 - May 2023

We were tasked to create a web app that provides cloud storage services.

Below are what we implemented

- File upload
- View list of all files.
- Download file from drive.
- View image in detail.

I did the design and coded part of both the frontend and backend.

BenTech Enterprise, Machakos - Kenya - Store Manager
August 2022 - 31 October 2022

As the store manager, my role was to sell all electronic and electrical products at the shop, stock taking, profit calculation, and marketing the products that we were selling.

EDUCATION

Moringa School, Kenya - Certificate in Software Engineering
November 2022 - May 2023
